

# DISTRICT XI Florida State Thespians 2023 Theatre Performance Assessments Administrator Awareness Statement

TO BE SIGNED BY THE TROUPE DIRECTOR AND PRINCIPAL

In a continuing effort to ensure that The Florida State Thespian Conference meets the standards of the individual schools attending the conference, the Florida State Thespian Board asks that each sponsor and his or her principal go on record supporting the following philosophical guidelines.

1. Florida State Thespians asks that you certify you have read the guidelines and rules for attending the Florida State Thespian Conference and verify that all of your registrants have the required 2.0 average for the current grading period. The Board assumes that the parents of these students have given their permission and that they understand their responsibility should their child be asked to return home as a result of disciplinary action. This exceptional travel, should it be deemed necessary, will be at the expense of the student involved and not the Florida State Thespian Board.

2. Florida State Thespians is committed to presenting the very best work from high schools across the State of Florida. Florida has a wide diversity of community standards and it should not be the task of the Florida State Thespian Board to set standards for individual schools. The Board does not wish to censor the material which is sent from your school representing your community. To this end, the board requests that you verify that each piece which will be performed representing your school has been screened by the sponsor and endorsed by the principal or his/her designee for a general audience. We ask you to certify that each piece meets your community standards, the standards set by your school and your school board, and applicable state law. We also understand this caveat will not guarantee that all material presented will fit the guidelines of all schools. To that end, we will continue to use the asterisk as a further means of denoting material which might be considered sensitive for some viewers.

We agree and endorse the goals and intentions of The Board of Florida State Thespians regarding behavior and content of materials to be presented as stated above.

The school board of Brevard County Florida on behalf of:
